LIST OF CONTENTS

VOLUME 2 NUMBER 1

E. Borenfreund, H. Babich and N. Martin-Alguacil — 1 Comparisons of two *in vitro* cytotoxicity assays—the neutral red (NR) and tetrazolium MTT tests

G. J. A. Oliver, M. A. Pemberton and C. Rhodes — 7 An *in vitro* model for identifying skin-corrosive chemicals. I. Initial validation

J. R. Young, M. J. How, A. P. Walker and W. M. H. Worth — 19 Classification as corrosive or irritant to skin of preparations containing acidic or alkaline substances, without testing on animals

M. Olsen and A. Visconti — 27 Metabolism of alternariol monomethyl ether by porcine liver and intestinal mucosa *in vitro*

I. M. Bruggeman, A. Spenkelink, J. H. M. Temmink and P. J. van Bladeren — 31 Differential effects of raising and lowering intracellular glutathione levels on the cytotoxicity of allyl isothiocyanate, *tert*-butylhydroperoxide and chlorodinitrobenzene

H. V. Vinters and H. W. Ho — 37 Effects of isobutyl 2-cyanoacrylate polymer on cultured cells derived from murine cerebral microvessels

M. L. Martin, K. C. Breen and C. M. Regan — 43 Perturbations of cellular functions integral to neural tube formation by the putative teratogen sodium valproate

G. Delfino, S. Amerini and A. Mugelli — 49 Barium cardiotoxicity: relationship between ultrastructural damage and mechanical effects

M. Kunimoto and T. Miura — 57 Translocation of cadmium from cytosol to membrane fraction in cadmium-loaded red blood cells of rats

C. Flower, B. J. Phillips and D. Anderson — 65 Absence of chromosome damage in Chinese hamster ovary cells exposed to detergents

Forthcoming Papers — 67

VOLUME 2 NUMBER 2

M. Hayashi, H. Tanii and K. Hashimoto — 69 Effect of acrylamide on cerebellar astrocyte proliferation *in vitro*

A. A. J. van Iersel, A. J. De Boer, C. W. M. van Holsteijn and B. J. Blaauboer — 75 The cytotoxicity of halothane in isolated hepatocytes: evidence for two different mechanisms

D. M. Creasy, L. M. Beech and T. J. B. Gray — 83 Effects of mono-(2-ethylhexyl) phthalate and mono-*n*-pentyl phthalate on the ultrastructural morphology of rat Sertoli cells in Sertoli/germ cell co-cultures: correlation with the *in vivo* effects of di-*n*-pentyl phthalate

L. C. Osborne, V. I. Jones, J. T. Peeler and E. P. Larkin — 97 Transformation of C3H/10T$\frac{1}{2}$ cells and induction of EBV-early antigen in Raji cells by altertoxins I and II

C. A. Jones, E. Huberman, M. F. Callaham, A. Tu, W. Halloween, S. Pallota, A. Sivak, R. A. Lubet, M. D. Avery, R. E. Kouri, J. Spalding and R. W. Tennant — 103 An interlaboratory evaluation of the Syrian hamster embryo cell transformation assay using eighteen coded chemicals

C. Kandaswami, G. Morin and P. Sirois 117 Lipid peroxidation in rat alveolar macrophages exposed to chrysotile fibres

J. J. van Houdt and I. M. C. M. Rietjens 121 Toxicity of airborne particulate matter to rat alveolar macrophages: a comparative study of five extracts collected indoors and outdoors

S. Kato, H. Itagaki, I. Chiyoda, S. Hagino, T. Kobayashi, Y. Fujiyama, H. Kakoki and M. Yamaguchi 125 Liposomes as an *in vitro* model for predicting the eye irritancy of chemicals

Z. Estrov, A. Cohen, E. W. Gelfand and M. F. Freedman 131 *In vitro* cytotoxicity of deferoxamine on human marrow haematopoietic progenitors

M. Korpela and H. Tähti 135 Human and rat erythrocyte membranes as a model for studying the effects of organic solvents on membrane-bound acetylcholinesterase *in vitro*

Th. J. Spierenburg, A. J. Baars, G. J. de Graaf and L. P. Jager 141 Carbadox-induced inhibition of aldosterone production in porcine adrenals *in vitro*

Announcements/Forthcoming Papers 145

VOLUME 2 NUMBER 3

Symposium Proceedings

B. Schmid 147 Preface

K. B. Langenfeld, J. M. Garbis-Berkvens, A. Verhoef and P. W. J. Peters 149 Histology of the rat embryo cultivated *in vitro* (18–22 somites)

E. S. Hunter, III and T. W. Sadler 163 Embryonic metabolism of foetal fuels in whole-embryo culture

H. Nau, C. Lewandowski, S. Klug and D. Neubert 169 Pharmacokinetic aspects of drug effects *in vitro* (II) placental transfer to the embryo and activity of some carboxylic acids structurally related to valproic acid in whole embryos in culture

T. W. Sadler, L. Shum, C. W. Warner and M. Kate Smith 175 The role of pharmacokinetics in determining the response of rodent embryos to teratogens in whole-embryo culture

R. Bechter and J.-F. Brouillard 181 The effects of different chemical forms of a test compound on embryotoxicity, distribution and metabolism *in vitro*

J. M. Tesh 189 The application of whole-embryo culture to new product development

R. Bechter and H. Schön 195 Use of the whole-embryo culture system in drug safety assessment?

Research Papers

A. A. Welder, M. A. Smith, K. Ramos and D. Acosta 205 Cocaine-induced cardiotoxicity *in vitro*

M. J. Tarr, R. G. Olsen, B. L. Bowen and R. H. Fertel 215 *In vitro* modulation of macrophage functions by 1,1-dimethylhydrazine (UDMH): possible mechanism for UDMH-induced immunoenhancement

The late M. C. Bird, M. M. Larkin and G. R. Betton 221 Toxic effects of the histamine H_2 receptor antagonist metiamide on bone-marrow haemopoietic and stromal progenitor cells *in vitro*

G. J. Mulder and C. T. Le 225 A rapid, simple *in vitro* screening test, using [^{3}H]glutathione and L-[^{35}S]cysteine as trapping agents to detect reactive intermediates of xenobiotics

Announcements 231

Forthcoming Papers 232

Corrigendum 233

VOLUME 2 NUMBER 4

F. Bieri, M. R. Nemali, S. Muakkassah-Kelly, F. Waechter, W. Stäubli, J. K. Reddy and P. Bentley 235 Increased peroxisomal enzyme mRNA levels in adult rat hepatocytes cultured in a chemically defined medium and treated with nafenopin

G. S. Bondy and P. A. Gentry 241 Comparison of the inhibitory effect of T-2 toxin on bovine platelet function with that of other known platelet inhibitors

M. J. Garle, J. Khan and J. R. Fry 247 Depletion of glutathione by the hepatotoxins paracetamol and bromobenzene, and their non-hepatotoxic analogues, in a fortified liver microsomal system

G. A. Jacobs and M. A. Martens 253 The enucleated eye test: a comparison of the use of ultrasonic and optic pachometers

K. S. Khera and C. Whalen 257 Detection of neuroteratogens with an *in vitro* cytotoxicity assay using primary monolayers cultured from dissociated foetal rat brains

J. Masanet, M. J. Gómez-Lechón and J. V. Castell 275 Hepatic toxicity of paraquat in primary cultures of rat hepatocytes

D. Schrenk, W. Dekant, P. H. Wünsch and D. Henschler 283 Role of metabolic activation in the toxicity of *S*-(pentachlorobutadienyl)glutathione and *S*-(pentachlorobutadienyl)-L-cysteine in the isolated perfused rat kidney

T. Tsuchiya, A. Ishida, N. Miyata, A. Takahashi and S. Kamiya 291 Effects of 3-*tert*-butyl-4-hydroxyanisole and its hydroquinone and quinone metabolites on rat and human embryonic cells in culture

M. Wydler, P. Maier and G. Zbinden 297 Differential cytotoxic, growth-inhibiting and lipid-peroxidative activity of four different asbestos fibres *in vitro*

Q. Zhang and J. C. Barrett 303 Dose-response studies of nickel-induced morphological transformation of Syrian hamster embryo fibroblasts

Meeting Report

I. Kimber 309 Immunotoxicology and allergy: old problems and new approaches

Forthcoming Papers 313
